BLOOMING POTTED PLANTS

for

Easter — Mother's Day — Memorial Day

SPRING BULBS

Tuberous Rooted Begonias

GIANT DOUBLE CAMELLIA FLOWERED

These are the largest type and the most popular. The blossoms resemble giant double Camellias, Peonies, Roses, and sometimes even Water Lilies. They vary in size from 3 inches across to 8 inches across.

Tuberous Rooted Begonias are very valuable for the hard-to-fill shady spots in the garden, blooming all summer and into the fall. They are easy to keep through the winter by storing in vermiculite.

They come in rich shades not found in any other flowering plant.

Colors—Dark Red, Scarlet, Pink, Orange, Copper, Salmon, White, and Yellow.

Care of Chrysanthemums

Mums do the best in full sunlight. They should be fertilized three times during the Summer. (We recommend our own well balanced "Special Mixture.")

Pinch back the tips of the taller growing varieties twice during June and early July.

Spraying with bordeaux mixture helps to prevent foliage diseases on mums.

Marsh Hay

Chrysanthemums and other perennials should be covered with Marsh Hay after the ground freezes in the Fall. Hay will be for sale at the Nursery in late October and November.

Chrysanthemums may be selected from colored pictures at the Nursery.

IRIS

Iris should be planted during August or in early September. All varieties may be selected from pictures at the Nursery.

Be sure to see our Iris blooming in June, which is the best time to check the varieties you will want in August.

PLANTING DIRECTIONS FOR EVERGREENS

Dig hole a foot larger and deeper than ball of earth on evergreen. Set tree a little lower than it stood in nursery, leaving the burlap around the ball of earth. Fill around ball with rich soil, pack firmly and fill hole with water. When settled, fill hole with soil, pack firmly, and leave top of ground covered with loose earth. Water well twice weekly.

Fertilize well with well rotted cow manure and bone meal.

ALL OUR EVERGREENS ARE GROWN AT THE NURSERY

Each one is carefully dug and balled at time of purchase, thereby assuring you of a completely fresh root system.

CHRYSANTHEMUMS

Hardy Chrysanthemums are easy to grow. A little care will produce a wealth of lovely flowers.

The varieties we offer have been selected from many kinds tried out at the nursery over a number of years.

Spring is the time most "Mums" are planted. They may then be selected from pictures at the nursery.

Some of our customers like to select "Mums" when they are in bloom. Then we dig them with large clumps of soil.

With "Mums" you can have "Color till the snow flies."
